

Mapped, edited, and published by the Geological Survey
Control by USGS and USC&GS
Compiled in 1956 from 1:24 000 scale maps of the
Algerita, Baker Spring, Brady Mountain, and Buffalo Knob
7.5 minute quadrangles, surveyed 1955-1956.
Polyconic projection, 1927 North American datum,
10,000-foot grid based on Texas coordinate system,
central zone
1000-meter Universal Transverse Mercator grid ticks,
zone 14, shown in blue
Unchecked elevations are shown in brown
