U.S. GEOLOGICAL SURVEY

1983

Produced by the United States Geological Survey
Compiled from USGS 1:24 000-scale topographic maps dated 1956-1982. Partially revised from aerial photographs taken 1982 and other source data. Revised information not field checked. Map edited 1983.

Shoreline shown represents the approximate line of mean high water. Projection and 10 000-meter grid, zone 15. Universal Transverse Mercator 25 000-foot grid ticks based on Texas coordinate system, south central and central zones. 1927 North American datum. To place on the predicted North American Datum 1983 move the projection lines 20 meters south and 20 meters east.

Offshore protection survey data, shown in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of BLM Outer Continental Shelf Official Protection Diagrams: 7 High Island dated July 16, 1954, and 6 Galveston Area dated July 16, 1954. The protections on this map are not for Federal leasing purposes; for such purposes, refer to the 1:250 000-scale OCS Official Protection Diagrams available from the Bureau of Land Management.

There may be private inholdings within the boundaries of the National or State reservations shown on this map.
