Polyconic projection. 1927 North American Datum
10,000-foot grid based on Texas coordinate system, south zone
1000-meter Universal Transverse Mercator grid ticks,
zone 14, shown in blue

Water stages in this area vary with meteorological conditions
Approximate limits of occasional inundation shown by dashed blue lines
where mean high water is undetermined for lack of visual evidence
Dotted blue lines indicate the approximate limits of low water

UTM GRID and 1983 MAGNETIC NORTH
DECLINATION AT CENTER OF SHEET

To place on the predicted North American Datum 1983
move the projection lines 33 meters south and
26 meters east as shown by dashed corner ticks

Revisions shown in purple compiled from aerial photographs
taken 1980 and other source data. This information not
field checked. Map edited 1983
