GEOLOGICAL SURVEY

1985

Produced by the United States Geological Survey

Compiled from USGS 1:24 000-scale topographic maps dated 1965-1983. Planimetry revised from aerial photography taken 1983 and other source data. Revised information not field checked.

Mexico portion derived from DGG 1:50,000-scale topographic maps dated 1978-1979. Villa Hidalgo G14A17, Colombia G14A27, and Miguel Aleman G14A28. Map edited 1985.

1927 North American Datum (NAD 27). Projection and 10 000-meter-grid: Universal Transverse Mercator, zone 14 25 000-foot ticks: Texas coordinate system, south zone.

The difference between NAD 27 and North American Datum of 1983 (NAD 83) is too small to show at this scale. The values of the shift between the datums for 7.5-minute intersections are given in USGS Bulletin 1875. Mexico portion is NAD 27.

There may be private inholdings within the boundaries of the National or State reservations shown on this map.
