Produced by the United States Geological Survey
U.S. portion compiled from USGS 1:250 000-scale topographic maps dated 1962-1983. Planimetry revised from aerial photographs taken 1987-88 and other source data. Revised information not field checked.
Mexico portion derived from DGG 1:500 000-scale topographic maps dated 1974-1980. Camargo G14B71, Comales G14B81, Ciudad Diaz Ordaz G14B82, and Reynosa G14B83.
Map edited 1992.

1927 North American Datum (NAD 27). Projection and 10 000-meter grid: Universal Transverse Mercator, zone 14 25 000-foot ticks. Texas coordinate system, south zone.

The difference between NAD 27 and North American Datum of 1983 (NAD 83) is too small to show at this scale. The values of the shift between the datums for 7.5-minute intersections are given in USGS Bulletin 1875. Mexico portion is NAD 27.

There may be private inholdings within the boundaries of the National or State reservations in the U.S. portion shown on this map.
