U.S. Route — State Route

INDIANA
QUADRANGLE LOCATION

Mapped, edited, and published by the Geological Survey in cooperation with State of Kentucky agencies. Revised in cooperation with State of Indiana Department of Conservation

Control by USGS, NOS/NOAA, and USCE

Planimetry by photogrammetric methods from aerial photographs taken 1950. Topography by planetable surveys 1952. Revised 1964

Polyconic projection. 10,000-foot grid ticks based on Indiana coordinate system, west zone and Kentucky coordinate system, south zone. 1000-meter Universal Transverse Mercator grid ticks, zone 16, shown in blue. 1927 North American Datum To place on the predicted North American Datum 1983 move the projection lines 3 meters south and 1 meter east as shown by dashed corner ticks

Fine red dashed lines indicate selected fence and field lines where generally visible on aerial photographs. This information is unchecked

The state boundary as shown represents the approximate position of the low water line as determined from U. S. Corps of Engineers Ohio River charts, surveyed 1912, and supplementary information
