To convert feet to meters multiply by .3048

To convert meters to feet multiply by 3.2808

MAY 4 1984

Produced by the United States Geological Survey

Control by USGS, NOS/NOAA, and North Carolina Geodetic Survey

Compiled by photogrammetric methods from aerial photographs taken 1977. Field checked 1979. Map edited 1983

Projection and 10,000-foot grid ticks: North Carolina coordinate system (Lambert conformal conic)
1000-meter Universal Transverse Mercator grid, zone 18
1927 North American Datum
To place on the predicted North American Datum 1983 move the projection lines 12 meters south and 25 meters west as shown by dashed corner ticks

Short dashed blue lines indicate elliptical bay outlines visible on aerial photographs

Gray tint indicates areas in which only landmark buildings are shown
