

NATIONAL OCEAN SURVEY
HYDROGRAPHIC SURVEY INDEX

H-9301

Diagram illustrating the relationship between Magnetic North (MN) and Grid North (GN). The diagram shows a vertical line representing the true north direction, with a star at the top. A line labeled MN (Magnetic North) is to the left, and a line labeled GN (Grid North) is to the right. The angle between MN and the vertical line is $7\frac{1}{2}^\circ$, with 133 MILS indicated below it. The angle between GN and the vertical line is $1^\circ 26'$, with 26 MILS indicated below it.
