

Produced by the Geological Survey

Orthophoto prepared from 1:58,000-scale color infrared photographs taken April 2, 1981. Photomicroscopy rectified by optical scanning which may produce double or mismatched images; use the mean of image positions for map point.

Projection: Virginia coordinate system, north zone (Lambert conformal conic); 10,000-foot grid ticks based on Virginia coordinate system, north zone, and Maryland coordinate system.

1000-meter Universal Transverse Mercator grid, zone 18. 1927 North American Datum.

To place on the predicted North American Datum 1983 move the projection lines 9 meters south and 27 meters west as shown by dashed corner ticks.
