

Produced by the United States Geological Survey in cooperation with Pennsylvania Department of Conservation and Natural Resources, Bureau of Topographic and Geologic Survey. Topography compiled 1957. Planimetry derived from imagery taken 1981 and other sources. Photorevised using imagery dated 1995; no major culture or drainage changes observed. Survey control current as of 1998. Boundaries, other than corporate, revised 1999. North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software. Projection: Pennsylvania coordinate system, north zone (Lambert conformal conic). 10 000-foot ticks: Pennsylvania coordinate system, north zone and New Jersey coordinate system. 1000-meter Universal Transverse Mercator grid, zone 18. North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software. There may be private inholdings within the boundaries of the National or State reservations shown on this map. Information shown in purple may not meet USGS content standards and may conflict with previously mapped contours.
