

Produced by the United States Geological Survey in cooperation with Pennsylvania Department of Conservation and Natural Resources, Bureau of Topographic and Geologic Survey. Derived from imagery taken 1951 and other sources. Photospectroscopic using imagery taken 1997; no major culture or drainage changes observed. Survey control current as of 1990. Boundaries, other than corporate, revised 1998. North American Datum of 1927 (NAD 27) Projection: Pennsylvania coordinate system, north zone (Lambert conformal conic). 10,000-foot ticks: Pennsylvania coordinate system, north and south zones (Lambert conformal conic). North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software. Purple hatching indicates areas to be submerged by Beltzville Lake at elevation 628 feet. Areas covered by dashed purple pattern are subject to controlled inundation to 651 feet. There may be private inholdings within the boundaries of the National or State Reservations shown on this map. Information shown in purple may not meet USGS content standards and may conflict with previously mapped contours.

CONTOUR INTERVAL 20 FEET
NATIONAL GEODETIC VERTICAL DATUM OF 1929
TO CONVERT FROM FEET TO METERS, MULTIPLY BY 0.3048
