Topography from aerial photographs by photogrammetric methods
Aerial photographs taken 1956 and 1957. Field check 1958

Polyconic projection. 1927 North American datum
10,000-foot grids based on Ohio and West Virginia coordinate
systems, south zones. 1000-meter Universal Transverse Mercator
grid ticks, zone 17, shown in blue

The state boundary as shown represents the approximate position
of the low waterline as determined from U. S. Corps of Engineers,
Ohio River charts, surveyed 1914, and supplementary information
Land lines based on the Ohio River Base. Dotted land lines established
by private subdivision of Ohio Company Purchase

Fine red dashed lines indicate selected fence and field lines where
generally visible on aerial photographs. This information is unchecked
