

IDAHO
POCATELLO QUADRANGLE

15-MINUTE SERIES

A diagram illustrating the relationship between True North and Magnetic North. A vertical line is labeled "TRUE NORTH". A line branching off to the right is labeled "MAGNETIC NORTH". The angle between these two lines is labeled "18 1/2°". Below the diagram, the text "APPROXIMATE MEAN" is visible.

SCALE 1:62500

The graphic scale bar consists of two horizontal lines. The top line is marked with numbers 1, 2, 3, and 4, representing meters. Below this line, corresponding values in feet are marked: 3000, 6000, 9000, 12000, 15000, 18000, and 21000. The bottom line is marked with numbers 1, 2, 3, 4, and 5, representing kilometers. The scale is 1:62500.
