Produced by the United States Geological Survey

Topography compiled 1947. Planimetry derived from imagery taken 1990 and other sources. Photoinspected using imagery taken 1997; no major culture or drainage changes observed Public Land Survey System and survey control current as of 1993. Boundaries, other than corporate, revised 2003

Contours and land elevations have not been revised and may conflict with other content

North American Datum of 1927 (NAD 27). Projection and 1 000-meter grid: Universal Transverse Mercator, zone 10
10 000-foot ticks: Washington Coordinate System of 1927 (south zone)

North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software

There may be private inholdings within the boundaries of the National or State reservations shown on this map
