FIELD OF LAND MANA

1979

Base map prepared by the U.S. Geological Survey
Compiled from USGS 1:24 000 scale topographic maps
dated 1958-75. Planimetry revised from aerial photographs
taken 1975, and other source data. Revised information not
field checked. Map edited 1979

Projection and 10 000-meter grid, zone 10,
Universal Transverse Mercator
25 000-foot grid ticks based on Washington coordinate system,
south zone. 1927 North American Datum
To place on the predicted North American Datum 1983
move the projection lines 20 meters north and 88 meters east

THIS MAP COMPLIES WITH NATIONAL MAP ACCURACY STANDARDS

Meters	Feet
1	3.2808
2	6.5617
3	9.8425
4	13.1234
5	16.4042
6	19.6850
7	22.9659
8	26.2467
9	29.5276
10	32.8084

DECLINATION DIAGRAM

To convert feet to meters multiply by 0.3048

Topographic Map Symbols

Primary highway, hard surface

Primary highway, hard surface
Secondary highway, hard surface
Light duty road, principal street, hard or improved surface
Other road or street, trail
Roadway marker: intensive; U. S. State
Railroad: standard gage; narrow gage
Bridge; overpass; underpass
Tunnel; road; railroad
Built up area; locality; elevation
Airport: landing field; landing strip
Neighborhood
State boundary
County boundary
National or State reservation boundary
Land grant boundary
U. S. public lands survey: range, township; section
Range, township; section line; protected
Power transmission line; pipeline
Dam; dam with lock
Cemetery; building
Windmill; water well; spring
Mine shaft; edit or save; mine, quarry; gravel pit
Recreation; picnic area; U. S. location monument
Ruins: off building
Distorted surface: strip mine, lava; sand
Contours: index; intermediate; supplementary
Streamlines: index; intermediate
Bayou; lake; perennial; intermittent
Rugby field; sand, small, falls, large and small
Lake to be submerged; marsh
Land subject to controlled swamping

NOTE TO MAP USERS

The surface and minerals management status overprints are published as general planning and management tools. Some of the lands, surface and mineral rights, may have been shown as patented lands due to the lack of information available to BLM with respect to the nature of acquisition. Tracts less than 40 acres are usually omitted because of the map scale. Access through private lands may be restricted. The official land records in the respective offices of the Bureau of Land Management or other responsible Federal agencies should be checked for up-to-date status on any specific tract of land. Inadequacies in the BLM maps should be reported to the respective Bureau of Land Management offices from which the maps were obtained.

Surface Management Status, 1980
