

Prepared by the U.S. Army Topographic Command (RMDV), Washington, D.C. Compiled in 1956 from United States quadrangles 1:25,000, 1:50,000, and 1:62,500, 1942-52; USGAS charts, 1938-51. Planimetry revised in part from aerial photographs taken 1950-52. Map field checked 1957. Revised by the U.S. Geological Survey 1969.

Selected hydrographic data compiled from USGAS charts. This information is not intended for navigational purposes.

10,000-meter Universal Transverse Mercator grid ticks, zone 18, shown in blue.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.

LEGEND	
POPULATED PLACES	ROADS
Over 500,000	Primary, all-weather, hard surface
100,000 to 500,000	Secondary, all-weather, hard surface
25,000 to 100,000	Light-duty, all-weather, improved surface
5,000 to 25,000	Fair or dry weather, unimproved surface
1,000 to 5,000	Trail
Less than 1,000	Interchange
RAILROADS	Interchange
Standard gauge	Interchange
Narrow gauge	Interchange
