

Diagram illustrating the relationship between True North, Magnetic North, and Grid North (GN) for the center of the sheet. True North is indicated by a star. Magnetic North is shown as a line deviating 1°03' (or 19 MILS) from True North. Grid North (GN) is shown as a line deviating 6°30' (or 116 MILS) from True North. The diagram illustrates the approximate mean declination for the center of the sheet.
