

Produced by the Geological Survey and the National Ocean Survey in cooperation with State of Georgia Agencies
Compiled from USGS 1:24 000-scale topographic maps dated 1956-1971
Planimetry revised from aerial photographs taken 1973-1974 and other source data. Revised information not field checked. Map edited 1978
Bathymetry compiled by the National Ocean Survey from tide-coordinated hydrographic surveys. This information is not intended for navigational purposes
Mean low water (dotted) line and mean high water (heavy solid) line compiled by NOS from tide coordinated photography. Apparent shoreline (outer edge of vegetation) shown by light solid line
Projection and 10 000-meter grid, zone 17: Universal Transverse Mercator 25 000-foot grid ticks based on South Carolina coordinate system, south zone, and Georgia coordinate system, east zone. 1927 North American datum
To place on the predicted North American datum 1983 move the projection lines 17 meters south and 18 meters west
South Carolina-Georgia boundary is dispute: not shown
Offshore protection survey data, printed in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of BLM Outer Continental Shelf Official Protection Diagram dated September 1, 1978. The protections on this map are not for Federal leasing purposes; for such purposes, refer to the 1:250 000-scale OCS Official Protection Diagrams available from the Bureau of Land Management
There may be private inholdings within the boundaries of the National or State reservations shown on this map
