

This is a detailed topographic map of the Big Horn National Forest area in Montana. The map features a grid with coordinates ranging from 106°00' to 107°30' West longitude and 45°00' to 47°30' North latitude. The Big Horn River is prominently shown flowing through the center of the map. Numerous creeks and smaller rivers are labeled, including the Yellowstone River, Snake River, and various forks of the Big Horn. Towns such as Jordan, Big Horn, and Pryor are marked. The map also shows the boundaries of Garfield, McCone, and Prairie counties. A scale bar at the bottom indicates distances in feet, ranging from 0 to 10,000 feet. The map is oriented with North at the top.

1983

- Contours and elevations in meters
- Highways, roads and other manmade structures
- Water features
- Woodland areas
- Geographic names

983

Compiled from USGS 1:24 000-scale topographic maps
dated 1964–1983. Partially revised from aerial
photographs taken 1973 and 1975 and other source data
Revised information not field checked
Map edited 1983

Projection and 10 000-meter grid, zone 13
Universal Transverse Mercator
15 000-foot grid ticks based on Montana coordinate
system, central zone. 1927 North American Datum
To place on the predicted North American Datum 1983 move
the projection lines 5 meters north and 47 meters east
There may be private inholdings within the boundaries of
the National or State reservations shown on this map

CONTOUR INTERVAL 20 METERS
NATIONAL GEODETIC VERTICAL DATUM OF 1929

THIS MAP COMPLIES WITH NATIONAL MAP ACCURACY STANDARD

primary highway, hard surface
 secondary highway, hard surface
 light duty road, principal street
 other road or street, trail
 night marker: U.S., State
 railroad: standard gage, narrow gage
 railroad: overpass, underpass
 canal: road, railroad
 outcrop area; locality, elevation
 airport, landing field, landing strip
 national boundary
 state boundary
 county boundary
 national or State reservation boundary
 and grant boundary
 U.S. public lands survey: range, township, section
 range, township, section line: protracted
 transmission line; pipeline
 dam; dam with lock
 cemetery; building
 (industrial) water well; spring
 line shaft; adit or cave; mine, quarry; gravel pit
 employment; picnic area; U.S. location monument
 sea; adit dwelling
 forested surface: strip mine, lava; sand
 contours: index; intermediate; supplementary
 index
 asymmetric contours: index; intermediate
 natural lake; perennial; intermittent
 gulches, large and small; falls, large and small
 trees to be submerged; marsh, swamp
 and subject to controlled inundation; woodland
 bog; meadow
 stream, vineyard
