

Prepared by the U.S. Army Topographic Command (AJART), Washington D.C. Compiled in 1955 by photogrammetric methods. Planimetry revised from aerial photographs taken 1953. Photographs field annotated in 1954. Revised in 1976 by the U.S. Geological Survey from aerial photographs taken 1975. 100,000-foot grids based on Montana coordinate system, south and central zones.

Location of geoidetic control established by government agencies is shown on corresponding 1:250,000-scale Geoidetic Control Diagram
