

This is a detailed topographic map of the Inyo National Forest area, showing the boundary between Nevada and California. The map features contour lines, rivers, creeks, and various landmarks. Key locations include Spring Valley, Lundy, and the Inyo National Forest. The map is overlaid with a grid of latitude and longitude coordinates.

Geographic Features:

- Topography:** The map shows a rugged terrain with numerous contour lines indicating elevation. Major peaks include Pinyon Mountain (8713') and Juniper Mountain (7962').
- Water Bodies:** Several creeks and rivers are depicted, including the Lundy Creek, Spring Creek, and the Inyo River. A large reservoir, Spring Valley Reservoir, is visible in the upper left.
- Boundaries:** The map clearly delineates the border between Nevada (to the west) and California (to the east). The Inyo National Forest boundary is also marked.
- Infrastructure:** Roads, trails, and various structures like bridges and dams are shown. A prominent aqueduct is visible in the upper right.
- Settlements and Landmarks:** Towns such as Spring Valley and Lundy are marked. Other landmarks include the Green Monster Mine and the Evergreen Mine.

Map Details:

- Grid:** The map is overlaid with a grid of latitude and longitude coordinates. Latitude ranges from approximately 37° 30' N to 37° 45' N, and longitude ranges from approximately 118° 15' W to 118° 07' 30' W.
- Scale:** The map includes a scale bar at the bottom, indicating distances in feet (up to 10,000 feet) and meters (up to 3,000 meters).
- Legend:** A legend is located in the bottom right corner, explaining symbols for various features like roads, trails, and water bodies.

Areas outside the National Forest System lands may not have been revised
Compiled by USGS and NOAA/NOAA
Partial field check by U.S. Forest Service 1994

North American Datum of 1927 (NAD 27). Projection and 10 000-foot ticks:
California coordinate system, zone 3 and Nevada west zone (Lambert conformal conic)
with 100 000-meter United States National Meridian ticks, zone 11
North American Datum of 1983 (NAD 83) is shown by dashed corner ticks
The values of the shift between NAD 27 and NAD 83 for 7.5-minute
intersections are obtainable from National Geodetic Survey NADCON software

 Non-National Forest System lands within the National
Inholdings may exist in other National or State reservations

This map is not a legal land line or ownership document. Public lands are
subject to change and leasing, and may have access restrictions; check
with local offices. Obstructions may be present before entering private lands

Unsurveyed land is not official
