

Prepared by the U.S. Army Topographic Command (CGPM), Washington, D.C. Compiled in 1956 by photogrammetric methods and from United States quadrangles 1:50,000 and 1:62,500, 1951-54. Planimetry revised in part from aerial photographs taken 1952. Photographs filed annotated 1954. Revised by the U.S. Geological Survey 1970.

Transverse Mercator Projection, 10,000-meter Universal Transverse Mercator grid, zone 11. 11,000,000-foot grid ticks based on California coordinate system zone 4 and Nevada coordinate system, central zone, 1927 North American Datum. To place on the predicted North American Datum 1983, move the projection lines 8 meters north and 80 meters east.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.

There may be private inholdings within the boundaries of the National or State reservations shown on this map.
