

Prepared by the U.S. Topographic Command (KCLD), Washington, D.C. Compiled in 1958 by photogrammetric methods and from United States quadrangles, 1:54,000, 1:25,000, 1:50,000 1938-56; USCGS Charts, 1954, 1955 and 1957. Planimetry partially revised from aerial photographs taken 1952-55. Map field checked 1959. Revised by the U.S. Geological Survey 1969.

Selected hydrographic data compiled from USCGS charts. This information is not intended for navigational purposes.

Area covered by light-blue pattern is subject to controlled inundation 100,000-foot grid based on California coordinate system, zone 6.

Certain land grant names and boundaries are omitted to avoid congestion.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.
