

Prepared under the direction of the President, Mississippi River Commission.
Horizontal control by Mississippi River Commission; Corps of Engineers, U. S. Army,
New Orleans District; U. S. Coast and Geodetic Survey and U. S. Geological Survey.
Vertical control by Mississippi River Commission; Corps of Engineers, U. S. Army,
New Orleans District and U. S. Geological Survey.
Topography by Corps of Engineers, U. S. Army, New Orleans District, 1948
Planimetry for area along Mississippi River revised from aerial photographs flown
by U. S. Air Force October 1946. Planimetry for remaining portions of quadrangle
map was revised from photographs flown by U. S. Air Force December 1945, and from
photographs flown by Aero Service Corporation November 1940, for the New Orleans
District, and from information obtained from Federal and State agencies and private corporations,
U. S. Geological Survey quadrangle maps, scale 1:31,680, used as base, with necessary
corrections and additions made for adaption to flood control use.
Political boundaries are shown according to best available information and are
subject to change except where established by court decision.
Depths along the thalweg in the Mississippi River are below (Mississippi River
Commission) mean low water and were taken from surveys of June 5 to 23, 1936.
Depths in California Bay and Breton Sound are below mean low water and were taken
from U. S. Coast and Geodetic Survey Chart 1272, dated August 30, 1948.
Dashed land lines are projected from best available data.
Polyconic Projection, 1927 North American Datum.
