

Prepared under the direction of the President, Mississippi River Commission
Horizontal control by Mississippi River Commission, Corps of Engineers, U.S. Army, New Orleans District,
U.S. Coast and Geodetic Survey, and Louisiana Geodetic Survey (L.G.S.)
Vertical control by Mississippi River Commission, Corps of Engineers, U.S. Army, New Orleans District and
Louisiana Geodetic Survey (L.G.S.)
Descriptions, elevations and geodetic positions of bench marks may be obtained from New Orleans
Engineer District, New Orleans, La.
Topography taken from U.S. Geological Survey and State of Louisiana Quadrangles, Martello Castle, La.
and Chalmette, La., scale 1:31,680, and U.S. Geological Survey and War Department Quadrangles,
Delacroix, La., and Belle Chasse, La., scale 1:31,680.
Topography along Mississippi River corrected from Aerial Photographs flown in 1940 and field examination
of March 1942.
Depths shown along thalweg in Mississippi River are below Mean Low Water as of Survey October 1936
through October 1937.
Mean Low Water elevation is expressed in feet, Mean Sea Level, and is shown on west border.
Elevations shown in Lake Borgne taken from U.S. Coast and Geodetic Survey Chart No. 1268, published
September 1940.
Political boundaries are shown according to the best available information and are subject to change except
where established by court decision.
Dashed land lines are projected from best available data.
Polyconic projection, 1927 North American Datum.
