To convert feet to meters
multiply by 0.3048
To convert meters to feet
multiply by 3.2808

Produced by the United States Geological Survey
and the National Ocean Service
Control by USGS and NOS/NOAA
Orthophotomaps prepared from aerial photographs taken
January 10, 1976. Compiled by photogrammetric methods
from aerial photographs taken January 1975.
Field checked 1976. Map edited 1982.
Bathymetry compiled by the National Ocean Service from
tide-coordinated hydrographic surveys.
This information is not intended for navigational purposes.
Mean low water (dotted) line and mean high water (solid) line
compiled by NOS from tide-coordinated aerial photographs.
Apparent shoreline (outer edge of vegetation) shown
by photomappers.
Projection and 10,000-foot grid ticks: Florida coordinate
system, north zone (Lambert conformal conic).
1000-meter Universal Transverse Mercator grid ticks, zone 16
1927 North American Datum (NAD 27).
North American Datum of 1983 (NAD 83) is shown by dashed corner ticks.
The value of the shift between NAD 27 and NAD 83 for 7.5-minute
intersections is given in USGS Bulletin 1875.
There may be private inholdings within the boundaries of
the National or State reservations shown on this map.
Photorevised from 1990 source; no major culture or drainage
changes observed. Names verified 1992.
