To convert feet to meters multiply by .3048

To convert meters to feet multiply by 3.2808

Produced by the United States Geological Survey
Control by USGS and NOS/NOAA
Orthophotomap prepared from aerial photograph taken January 9, 1976. Compiled by photogrammetric methods from aerial photographs taken March 1978
Field checked 1981. Map edited 1982
Supersedes topographic map dated 1954
Projection and 10,000-foot grid ticks: Florida coordinate system, north zone (Lambert conformal conic)
1000-meter Universal Transverse Mercator grid, zone 16
1927 North American Datum
The difference between 1927 North American Datum and North American Datum of 1983 (NAD 83) for 7.5-minute intersections is given in USGS Bulletin 1875. The NAD 83 is shown by dashed corner ticks
Dashed land lines indicate approximate locations
There may be private inholdings within the boundaries of the National or State reservations shown on this map
