GEOLOGICAL SURVEY

Produced by the United States Geological Survey

Compiled from USGS 1:24 000-scale topographic maps
dated 1967-1979. Planimetry revised from aerial
photographs taken 1974 and 1982 and other source data
Revised information not field checked
Map edited 1986

Projection is 10 000-metric grid, zone 19
Universal Transverse Mercator
25 000-foot grid ticks based on Massachusetts coordinate
system, established in 1928
to place on the predicted North American Datum 1983 move
the projection lines 7 meters south and 43 meters west
Offshore protection survey data, shown in red, furnished
by the Minerals Management Service. Heavy lines indicate
limits of Outer Continental Shelf Official Protection Diagrams
dated October 31, 1974. The protections on this map are set
for Federal Benthic Survey data submitted to the OCS Official
Protection Diagram available from the Minerals Management Service
