

SINGLE-EDITION QUADRANGLE MAP

This is the first primary series, topographic quadrangle map to be produced under an interagency agreement between the U.S. Geological Survey (USGS) and the Forest Service (FS) that results in a single-edition map that meets the needs of both agencies. The FS and the USGS are cooperating in the revision of full-color, primary series topographic maps that use common product standards for format, accuracy, content, and symbolization.

The USGS is responsible for producing topographic maps and digital data throughout the United States. In the 48 contiguous States and Hawaii, the USGS produces primary series 7.5-minute format, 1:24,000-scale topographic maps and associated digital line graph data. In Alaska, the primary series map* are produced in the 15-minute format at 1:63,360 scale.

The FS is responsible for the land management of more than 191 million acres of National Forest System lands, including National Forests, National Grasslands, and Experimental Forests and Ranges. To carry out its mission, the FS produces and updates base cartographic data in both conventional map and digital form, built upon the USGS 7.5-minute and 15-minute primary series topographic maps and data.

Produced by the U. S. Geological Survey
Revised by the U. S. Forest Service
Control by USGS and NOS/NOAA
Compiled from aerial photographs taken 1973. Revised from aerial photographs taken 1967. Field checked 1993. Map edited 1993.
North American Datum of 1927 (NAD 27). Projection: Oregon Coordinate System, north zone (Lambert Conformal Conic) 10 000-foot ticks: Oregon Coordinate System, north zone and Washington Coordinate System, south zone
Blue 1000-meter Universal Transverse Mercator ticks, zone 10
North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5 minute intersections are given in USGS Bulletin 1875.
Non-National Forest system lands within the National Forest. Inholdings may exist in other National or State reservations.
This map is not a legal land line or ownership document. Public lands are subject to change and leasing; access through private lands may be restricted. Inquire locally before entering.
