Base map prepared by the U.S. Geological Survey

Compiled from USGS 1:24 000 and 1:62 500-scale topographic maps dated 1956–1975. Planimetry revised from aerial photographs taken 1975 and other source data. Revised information not field checked. Map edited 1980

Projection and 10 000-meter grid, zone 10, Universal Transverse Mercator
25 000-foot grid ticks based on Oregon coordinate system, south and north zones
1927 North American Datum
To place on the predicted North American Datum 1983 move the projection lines 23 meters north and 96 meters east

NOTE TO MAP USERS

The surface and minerals management status overprints are published as general planning and management tools. Some of the lands, surface and mineral rights, may have been shown as patented lands due to the lack of information available to BLM with respect to the nature of acquisition. Tracts less than 40 acres are usually omitted because of the map scale. Access through private lands may be restricted. The official land records in the respective offices of the Bureau of Land Management or other responsible Federal agencies should be checked for up-to-date status on any specific tract of land. Inadequacies in the BLM maps should be reported to the respective Bureau of Land Management offices from which the maps were obtained.
