GEOLOGICAL SURVEY

1982

Produced by the United States Geological Survey in cooperation with the Soil Conservation Service. Compiled from USGS 1:24 000-scale orthophotomaps dated 1972-1974. Planimetry revised from aerial photographs taken 1979 and other source data. Revised information not field checked. May 1982. Projection and 10 000-meter grid, zone 17: Universal Transverse Mercator. 25 000-foot grid ticks based on Florida coordinate system, east zone, 1927 North American Datum. To place on the predicted North American Datum 1983 move the projection lines 39 meters south and 18 meters west. Offshore protection survey data, shown in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of BLM Outer Continental Shelf Official Protection Diagrams dated December 2, 1976 and October 24, 1978. The protections on this map are not for Federal leasing purposes; for such purposes, refer to the 1:250 000-scale OCS Official Protection Diagrams available from the Bureau of Land Management. There may be private inholdings within the boundaries of the National or State reservations shown on this map.
