

Prepared by the U. S. Army Topographic Command (KCSX), Washington, D. C. Compiled in 1955 by photogrammetric methods from aerial photographs taken 1948. Map field checked 1956. Revised in 1974 by the U. S. Geological Survey from aerial photographs taken 1973.

Area covered by dashed light-blue pattern is subject to controlled inundation.

100,000-foot grids based on Kansas coordinate system, south and north zones and Missouri coordinate system, west zone.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.
