

PRODUCED BY THE U. S. GEOLOGICAL SURVEY AND THE NATIONAL OCEAN SURVEY

Base map prepared by the Defense Mapping Agency from maps dated 1947-48, NOS charts dated 1953, and aerial photographs taken 1949-50. Photographs field checked 1954. Revised by the U. S. Geological Survey from aerial photographs taken 1974 and other source data. Revised information not field checked. Map dated 1975.

Bathymetry compiled by the National Ocean Survey from tide-coordinated hydrographic surveys. Bathymetric survey data comply with International Hydrographic Organization (IHO) Special Publication 44 accuracy standards and/or standards used at the date of the survey. This information is not intended for navigational purposes.

Mean low water (dotted line) and mean high water (solid line) compiled by NOS from tide-coordinated aerial photographs.

Offshore protection survey data, shown in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of BLM Outer Continental Shelf Protection Diagram dated January 27, 1976. The projections on this map are not for Federal leasing purposes; for such purposes, refer to the OCS Official Protection Diagrams available from the Bureau of Land Management.

Transverse Mercator Projection, 10,000-meter Universal Transverse Mercator grid, zone 17. 100,000-foot grid ticks based on Florida coordinate system, north, west, and east zones. 1927 North American Datum. To place on the predicted North American Datum 1983, move the projection lines 23 meters south and 14 meters west.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.

There may be private inholdings within the boundaries of the National or State reservations shown on this map.
