U. S. GEOLOGICAL SURVEY

1985
PHOTOINSPECTED 1991

Produced by the United States Geological Survey and the National Ocean Service
Compiled from USGS 1:24 000 and 1:62 500-scale topographic maps dated 1940-1983
Platymetry revised from aerial photographs taken 1983 and other source data. Revised information not field checked. Map edited 1985
1927 North American Datum (NAD 27). Projection and 10 000-meter grid. Universal Transverse Mercator, zone 19
25 000-foot ticks: Maine coordinate system, east zone
The difference between NAD 27 and North American Datum of 1983 (NAD 83) is too small to show at this scale. The values of the shift between the datums for 7.5-minute intersections are given in USGS Bulletin 1875
Offshore protection survey data, shown in red, furnished by the Minerals Management Service. Heavy lines indicate limits of Outer Continental Shelf Official Protection Diagrams dated October 31, 1974 and September 1985. The protections on this map are not for Federal leasing purposes; for such purposes, refer to the USGS Official Protection Diagrams available from the Minerals Management Service
There may be private landholdings within the boundaries of the National or State reservations shown on this map
Map photoinspected using 1988 and 1990-91 photographs
No major culture or drainage changes found

CONTOUR INTERVAL 10 METERS
