U. S. GEOLOGICAL SURVEY

1985

Produced by the United States Geological Survey and the National Ocean Service. Compiled from USGS 1:24 000-scale topographic maps dated 1955-1980. Planimetry revised from aerial photographs taken 1979 and other source data. Revised information not field checked. Map edited 1985 1927 North American Datum (NAD 27). Projection and 10 000-meter grid: Universal Transverse Mercator, zone 19 25 000-foot ticks: Maine coordinate system, west and east zones. The difference between NAD 27 and North American Datum of 1983 (NAD 83) is too small to show at this scale. The values of the shift between the datums for 7.5-minute intersections are given in USGS Bulletin 1675. Offshore protection survey data, shown in red, furnished by the Minerals Management Service. Heavy lines indicate limits of Outer Continental Shelf Official Protection Diagram dated October 31, 1974. The protections on this map are not for Federal leasing purposes; for such purposes, refer to the OCS Official Protection Diagram(s) available from the Minerals Management Service. There may be private inholdings within the boundaries of the National or State reservations shown on this map. CONTOUR INTERVAL 10 METERS. NATIONAL GEODETIC VERTICAL DATUM OF 1929. ELEVATIONS SHOWN TO THE NEAREST METER. THIS MAP COMPLIES WITH NATIONAL MAP ACCURACY STANDARDS.
