Contours.....National Elevation Dataset, 2001

The diagram shows a vertical line representing the meridian. At the top is a star symbol. A point 'GN' is marked on the meridian. A line segment extends from 'GN' to a point 'MN'. The distance from 'GN' to 'MN' is labeled '16 MILES'. The angle between the meridian and the line segment 'GN-MN' is labeled '0° 53\''. A horizontal line extends from 'MN' to the right, labeled '224 MILES'. The angle between the line segment 'GN-MN' and this horizontal line is labeled '12° 36\''.
