Diagram illustrating the relationship between Magnetic North (MN) and Grid North (GN) with declination and scale information:

- Magnetic North (MN) is indicated by a star at the top of a vertical line.
- Grid North (GN) is indicated by a point on the vertical line below MN.
- The declination is shown as the angle between MN and GN, labeled as $3^{\circ} 21'$.
- The scale is indicated as 60 MILS.
- The declination is also shown as the angle between MN and a horizontal line, labeled as $1^{\circ} 23'$.
- The scale is indicated as 25 MILS.
